T-LINK DISC GOLF SHOES

LATITUDE 64° PRODUCT WARRANTY

We stand behind all Latitude 64° products and guarantee them to be free from manufacturing defects for 6 months from the confirmed date of purchase. We ask that you keep your sales receipt as verification of your purchase.

If your Latitude 64° product fails because of a defect in material quality or workmanship, we ask that you contact the Latitude 64° retailer of your original purchase to quickly resolve the issue prior to contacting us. If you are unable to resolve your warranty claim through the Latitude 64° dealer where your original purchase was made, we may be able to help.

GENERAL GUIDELINES OF OUR WARRANTY

- Approved warranty product is replaced at the discretion of Latitude 64°.
- All cash refunds must be obtained through the original purchaser.
- Warranty is only valid to purchases made from an authorized Latitude 64° dealer.
- Latitude 64° is not responsible for any cost, or damages, incurred due to loss of use of the product.
- Product worn past the point of it being able to be repaired voids warranty coverage.
- You will need to keep possession of the product until you receive confirmation from us that your warranty claim has been completed.
- If your claim is approved, you will receive a new product at the discretion of Latitude 64°.
- Coverage ends when you transfer product.

EXAMPLES OF WHAT IS NOT COVERED BY WARRANTY:

- Frayed webbing, worn stitching and worn soles due to normal wear.
- Damage that is a result from misuse, normal wear and tear or damage occurred during storage.
- Damage from toe-drag. The top front side of the shoe is not made to withstand wear and tear caused by friction.
- Improper fit. Fit is the responsibility of the owner and should be assured before purchasing the product.
- Any footwear which is more than 2 years after the manufacturing date.
- Salesman samples, promotional product and final sale discounted product.
- Products with labels removed.

LATITUDE 64° CARE AND MAINTENANCE

- Proper care of your shoes will greatly extend their life.
- When taking off the shoes, laces should be untied.
- Shoes should be maintained systematically.
- We strongly advise against washing them in a washing machine, it could cause damage to material used in the construction of the shoes.

CLEANING

- Before cleaning laces should be removed.
- Clean mud and dirt under running water, if necessary use neutral soap and a soft brush
- When drying, open the shoes and leave them in cool and ventilated area, do not dry them out in the sun or in hot places.
- Not following mentioned may cause guarantee loss.
